

Now that our website is ready, it is time to take the next step.

Of course we can't show all at once and tell you everything we do with music videos and sound design....so from Friday April 14 every week we will present an item via **streaming services**, YouTube, **Bandcamp** or Instagram.

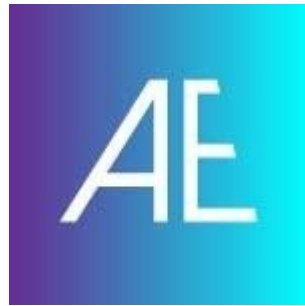

Most of them can also be viewed on our website.

In terms of content, these will be new own **projects**, collaboration projects, a look behind the scenes, demos or requests.

Of course we hope to welcome you as a viewer/listener and follower/subscriber; we are curious what you think of our items!

is an American company started in 2007 by Ethan Diamond and Shawn Grunberger, along with programmers Joe Holt and Neal Tucker. In 2008, the company opened an online music store and artist promotion platform aimed at independent artists. An app was added in 2013. Bandcamp was acquired by game company Epic Games on March 2, 2022 for an undisclosed sum. It will continue to operate as an independent company under Epic.

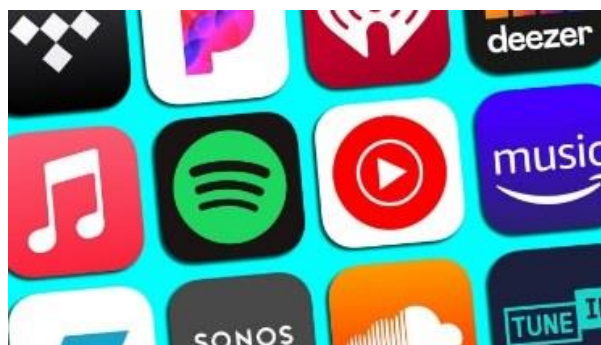

Projects

These are own compositions (video/music) or collaborations with other musicians, artists, with the aim of strengthening or supplementing each other's creations.
